

THE LOFT

LIVING THE PRACTICAL LUXURY

NEW CAPITAL

LIVING
THE PRACTICAL
LUXURY

- The Developer

**LIVING
YARDS**
DEVELOPMENTS

LIVING YARDS DEVELOPMENTS is entering the Egyptian market with a new inspiring vision. Introducing a unique concept to the real estate market. **Practical Luxury** the mix of value for money with lavishness and **diversity with luxury**. A new trend setter in the market where compromises don't exist.

LIVING YARDS is a grand addition to the world of real estate that subscribes to the mantra of thinking the unthinkable, with the sole purpose of satisfying the unmet needs of our customers, through applying a novel methodology in delivering all of its projects.

▼ The Location

▼ About The New Capital:

The New Capital is built on new urban standards with high infrastructure. It succeeded to combine the seamless blend of class and convenience through having all the essential facilities such as: international airport, 2000 educational institutions, theme parks, artificial lakes and the new major central park.

The New Capital is set to be Egypt's new administrative and financial capital; consisting of 21 residential districts and hosting the country's new main government departments, ministries and foreign embassies.

The New Capital is expected to be Cairo's most vibrant destination. It is built on a vast space of **184,000 acres with 660 hospitals and 40,000 hotel rooms**. 70% of the capital's space is covered by the global information network.

The New Capital has **91 Square Kilometers of solar energy farms** to generate power in a conventional way. It is an independent city that has all necessary facilities including a **cathedral and mosque**.

Customer Centric Development Process CCDP

Understanding the CCDP:

It is a process where a product or service is developed based on an **in-depth customer understanding**.

The process is designated to help offer the customer tangible benefits which they have been on the lookout for. It is where **the voice of the customer is heard** through a thorough system that only aims for **customer satisfaction**. Not only in the beginning of the process, but also throughout the whole journey.

An extensive research has been conducted by AC Nielsen to determine what the customer really needs while looking for their dream home and this is where THE LOFT comes from.

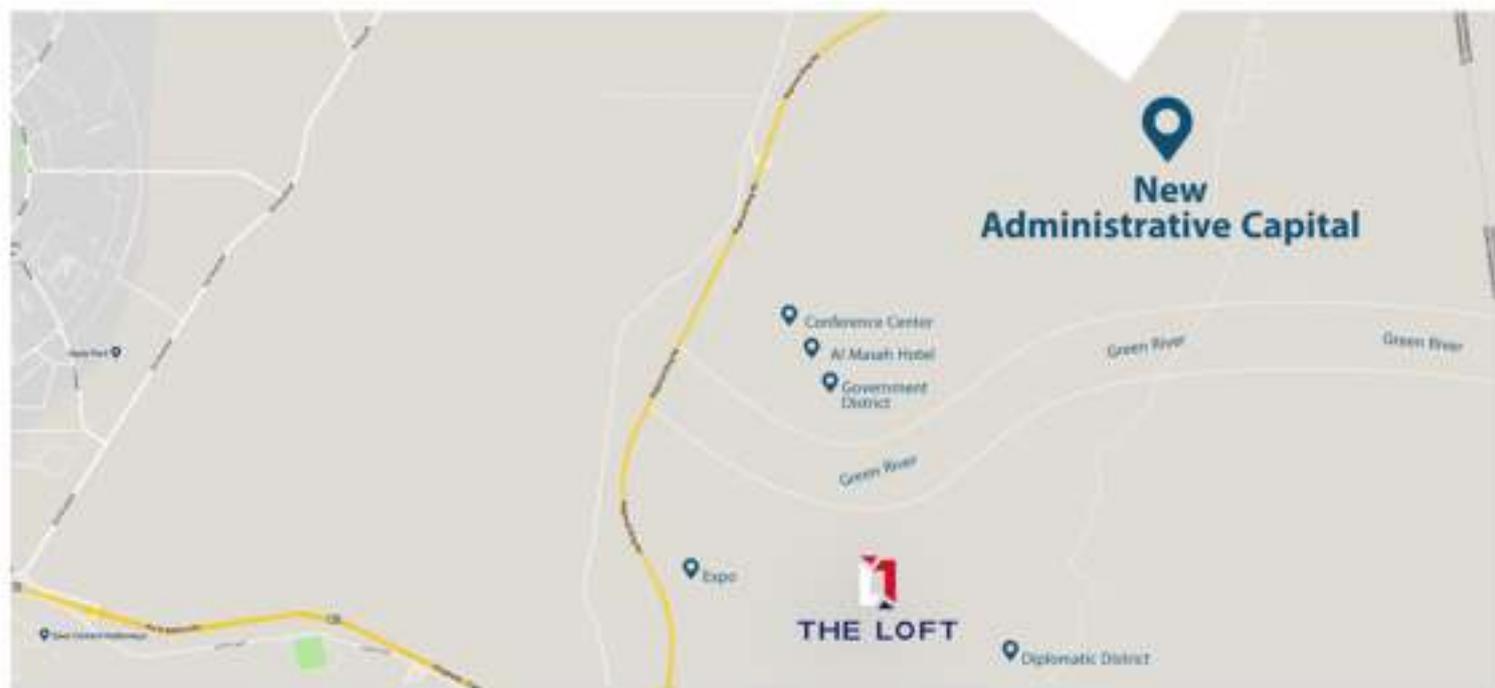

▼ Mastered The Plan

THE LOFT was put together by **Dar Al Mimar Architects (DMA) Callison for Architecture**. Mastering details was key to finally bring us a compound that bursts with fine architecture while offering a deluge of amenities and services that solve almost all of our problems.

Scenery and view have been made to surround the whole compound as **100% of buildings directly overlook the park**. The commercial area of the compound offers an exquisite shopping experience to residents.

◀ Near Enough

THE LOFT boasts an enigmatic location in The New Capital which is **25 Kilometers away from Fifth Settlement**. THE LOFT overlooks the amenities area of the New Capital and lies **between Expo and diplomatic areas**.

THE LOFT is 10 minutes away from the massive green river. There is no need to worry about Cairo's traffic congestion while you are there, because the New Capital has a **monorail that connects it with Nasr City and New Cairo** and hence it combats the traffic ordeal in Egypt. There is also High Speed Train that will connect the New Capital with 6 th of October City also with Ain-El-Sokhna.

▼ The Compound

THE LOFT is LIVING YARDS' first project located in the **New Capital**, extended on a surface of **23 acres** and offering real lofts in **luxurious buildings** with **Post Modern British Architecture**.

Luxury is a state of great comfort where there is no roof for imagination; fantasies become the only dominant thing.

THE LOFT is a world where imagination meets real life. It is the perfect harmony between fanciness and practicality, to effectively achieve the desired picture for your place. THE LOFT is what we call a dream enabler.

▼ Customize Your Loft

THE LOFT is the only place where customers can have the luxury of **customizing their own space** and rework their room allocation as they see fit. Believing that our customers' different preferences should never be restrained with walls, as nothing can dictate their choices anymore.

THE LOFT is a compound where **all units are adaptable open space**, taking inspiration from the **British lofts** that have **no walls** and **could be divided as desired**. However, there are **3 ready made plans** that are also very customizable.

THE LOFT is a place where everything is customizable whether it is the space or finishing.

Life is a Grand Garden

THE LOFT is a resemblance of utmost sophistication; it has one very wide external ring road (16 meters wide) that circles the compound and is the only pathway for cars.

This allows residents to enjoy unprecedented safety where pedestrians can walk freely.

Delving into serenity is the ultimate perk of the external ring road where residents can serenade to the unrivalled ambience.

A man and a woman are riding bicycles together outdoors. The man is wearing a yellow t-shirt and sunglasses, and the woman is wearing a floral dress and sunglasses. They are both smiling and looking towards the camera. The background is a bright, sunny outdoor setting with green trees.

Keep Cycling

Because cycling is a passion, we made sure that you have a special place for it. THE LOFT has a separate bicycle track where all bicyclers don't have to bother about moving cars or people walking.

No Kidding

Drop your kids off at a safe playing space, where you can no longer worry about sitting them all the time.

• The Track of Happiness

Nothing is as good as a morning run where a 1 KM track overlooks spectacular greenery, making your experience a one of its kind.

A Splash of Enjoyment

The compound boasts different types of pools and lagoons, like training pool, leisure pool and club house pool. Every building cluster has its own swimming pool and for a more advanced experience there is a semi-Olympic pool.

Semi-Olympic Pool:

Some Time for Yourself

Zone out from the world for a while in a secluded environment where you can enjoy doing yoga and surrendering to your inner peace.

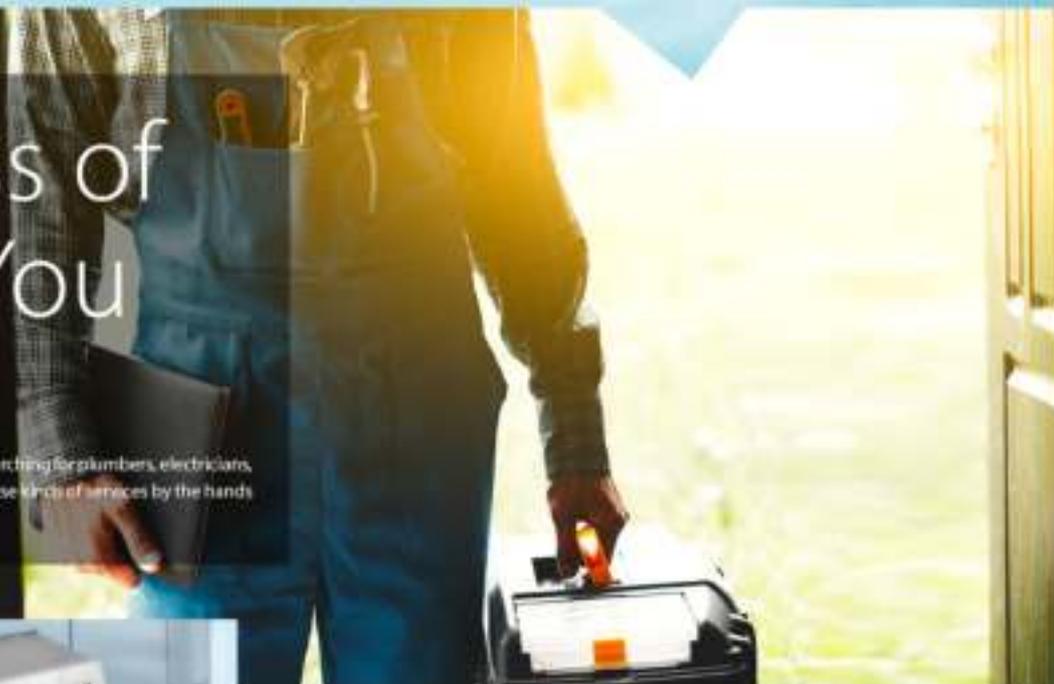

Sometimes all what life needs is a good barbecue; this is why a BBQ area was necessary. Barbecuing never fails to create a distinctive spirit to every gathering where family and friends can enjoy quality time every now and then.

Do More of What You Love

Escape the hustle and bustle of the city and dwell in tranquility at one of the most exceptional club houses with the choicest restaurants.

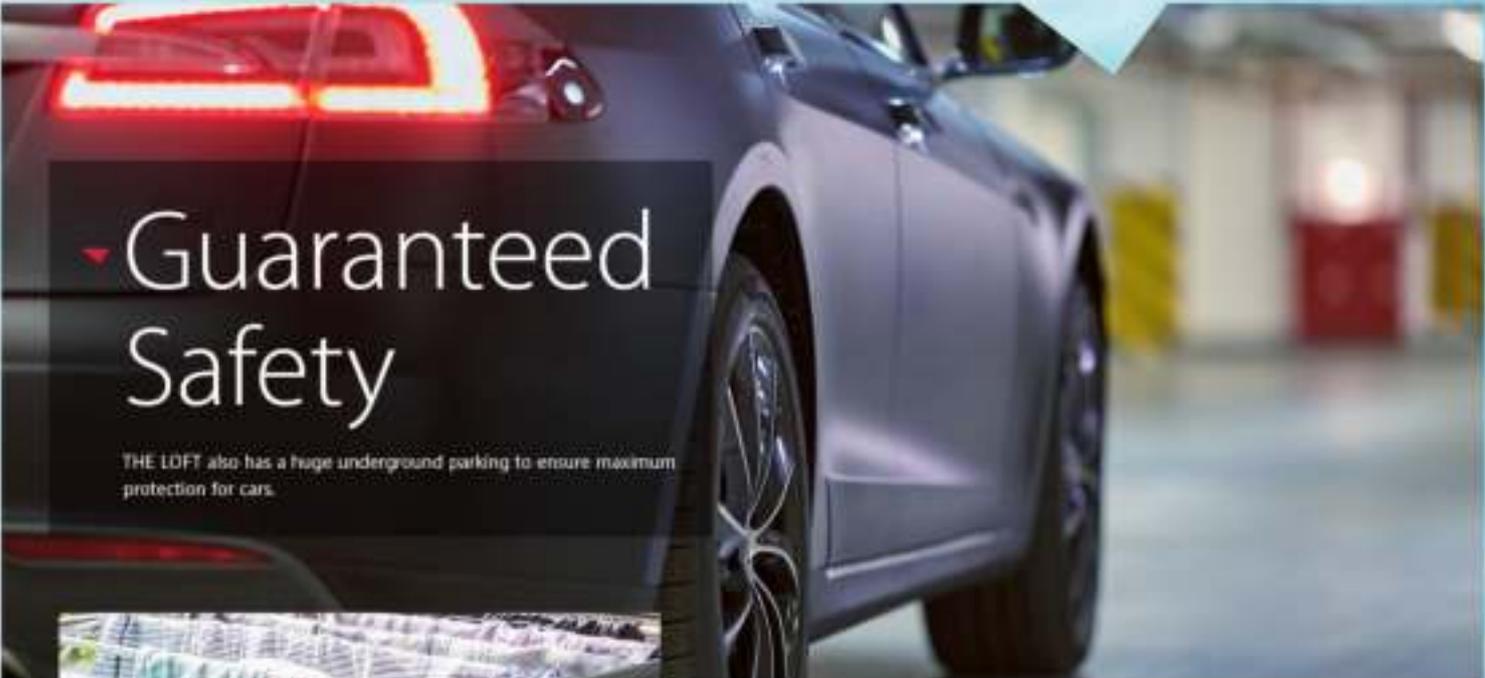

Do Less of What You Hate

We spare our residents the hassle of searching for plumbers, electricians, carpenters, through securing them these kinds of services by the hands of trusted professionals.

A garbage chute is there to ensure a clean experience, so that we make sure you do less of what you hate.

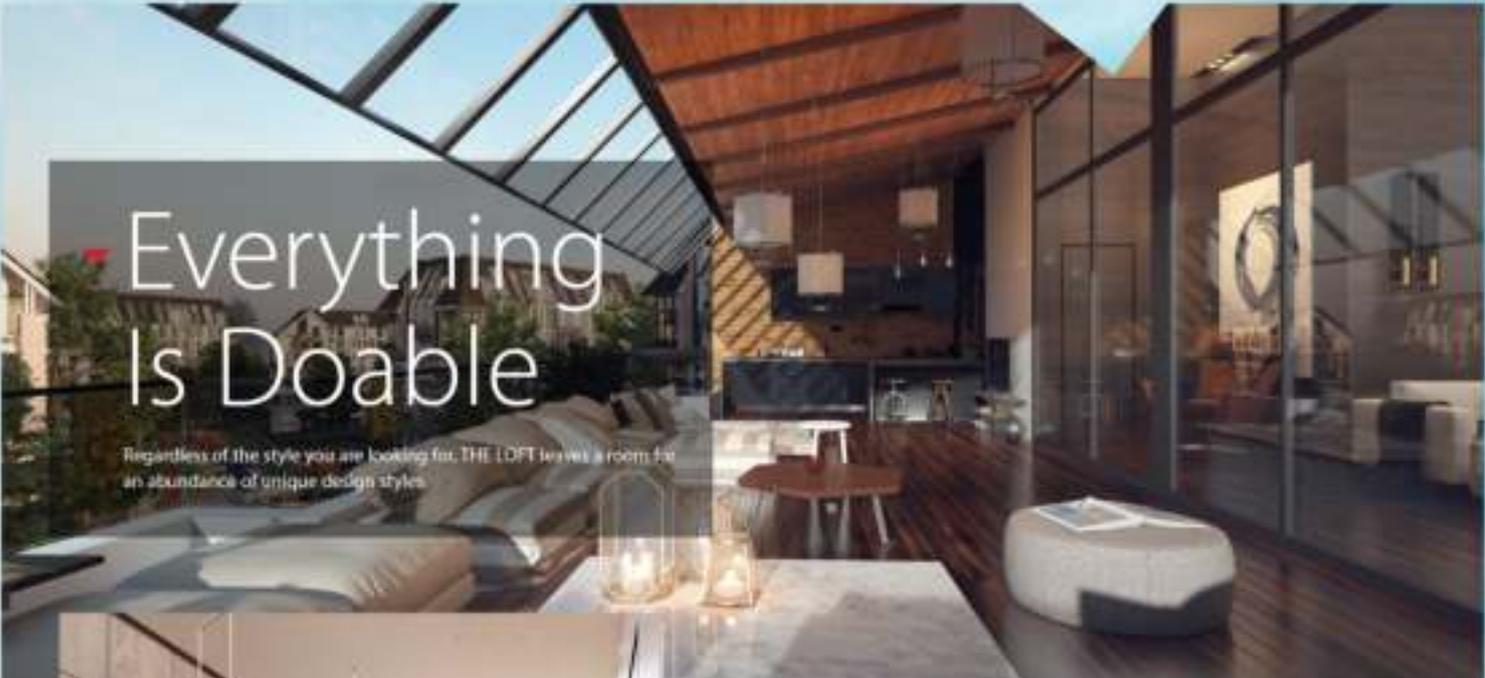

Guaranteed Safety

THE LOFT also has a huge underground parking to ensure maximum protection for cars.

Perfecting The Details

THE LOFT hasn't missed a single detail that might concern its residents, introducing the idea of dry terraces to all units.

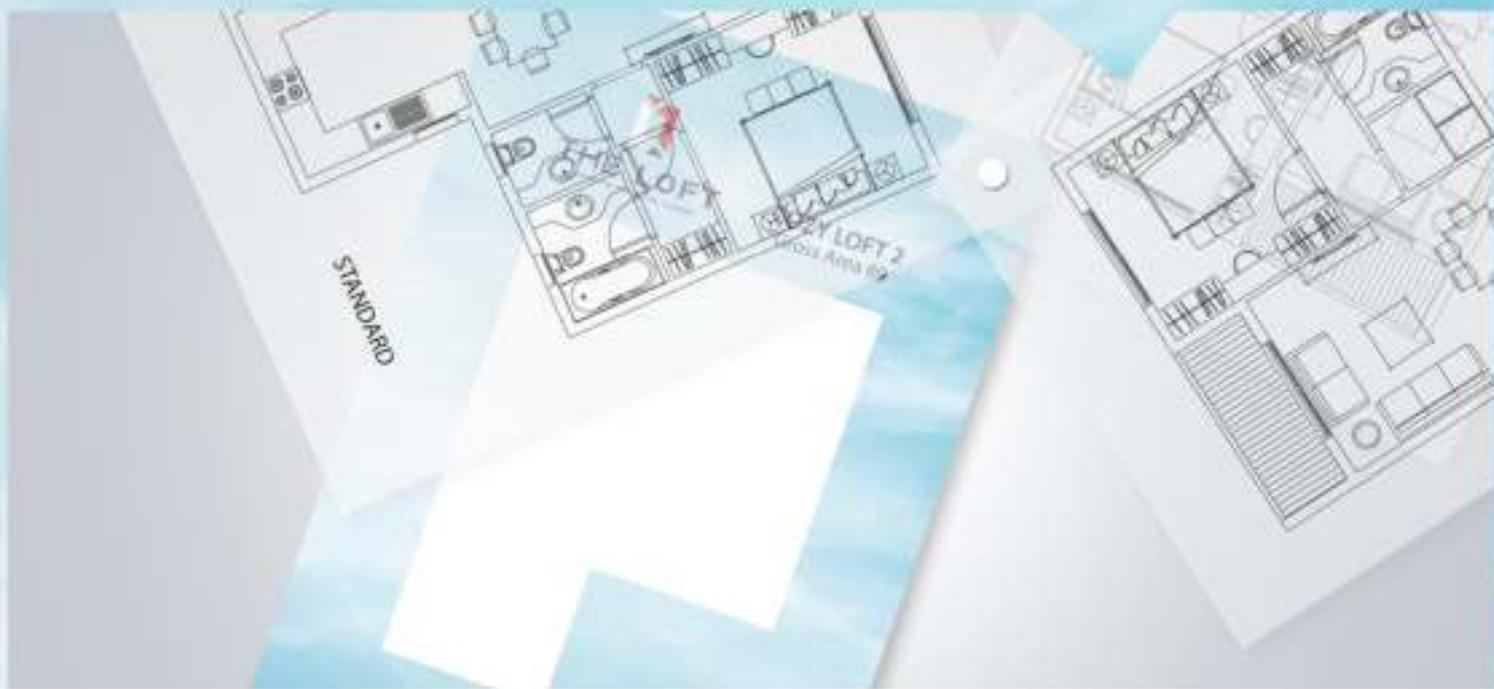

Everything Is Doable

Regardless of the style you are looking for, THE LOFT leaves a room for an abundance of unique design styles.

Whether to employ a sense of simplicity, unfinished rawness, or utmost sophistication.

▼ No Limitations

THE LOFT dedges up different sorts of units that are customizable ranging from 1-bedroom lofts to 5- bedroom lofts to satiate all needs and wants.

Moreover, open space can always help create aesthetically captivating designs without any limitations.

All desired designs are customizable according to personal preferences.
