# Master Plan

# Construction Updates

## Parcel A

- 100% Excavation
- 100% Soil replacement
- 60% Concrete work

In a successful leap toward growing stronger in delivering world class project. We have enhanced the rate of construction to finish the excavation and reach 100% of its progress, while increased productivity and efficiency has allowed us to finish 100% of soil replacement to elevate the construction speed to a new level of professionalism, which allowed us to achieve 60% of the concrete work beyond the scheduled timing.

## Parcel D

- 100% Excavation
- 60% Soil replacement
- 0% Concrete work

Due to our commitment to ensure timely and efficient delivery. The rate of construction has increased to finish the excavation and reach 100% of its progress, while efficient productivity has allowed us to finish 60% of soil replacement to guarantee our rapid progress and lead quality results.
